Dear readers,

First of all, with Christmas upon us, we wish merry tidings to the Christians of the world and especially the Christians who are in danger and persecuted in the Middle East, particularly in Syria, Iraq and Lebanon. We wish them peace and hope that they will live in their homeland in freedom.

In the last three months the Middle East has become steadily more dangerous, particularly for Christians. As the war has intensified, so to have the numbers of Christian refugees increased. In the last three months, hundreds of the Syriac Christians took refuge from Syria, Lebanon and Iraq.

We, as the European Syriac Union, have cooperated with other political and cultural institutions to protect the Syriacs Christian refugees in Turabdin in Turkey, North Iraq and Lebanon. Therefore, we have established a committee called "Bethnahrin Solidarity Committee". As a result, we have launched a campaign to fulfill the material needs of people. This committee was established on 21st of October in Germany.

The case of Syria is now on the world’s agenda, but the native people of Syria, the Syriacs, though they are persecuted and killed, have not heard their cry answered or their problem understood. To announce the cry of the Syriac Christians of Syria, we arranged on 9th of October a conference in the European Parliament in Brussels. This conference was lead by Member of European Parliament (MEP) Elmar Brok who is Chairman of the Committee on Foreign Affairs and the European Syriac Union ESU. Several MEP’s from the European Parliament and around 120 people from different countries attended in this conference.

The speakers of this conference were The president of the Syriac council of Syria, Mr. Basam Ishak and the Vice President of the Syriac Union Party, Mr. Said Malke. Both of them explained the situations, the circumstances and moreover the problems the Syriac Christians face in Syria. They also mentioned the demands of the Syriacs in Syria, to be considered together with the other Syrian communities. They need to be treated with equal importance and to solve the problem of the Syriacs as the problems of the Muslims, Kurds, Alleviates and other minorities.

To solve the problems of the Syriacs and the difficulties that they face in the Middle East, we have established a group of parliaments called "Swiss-Syriacs friends". This group consists of 13 members of the Swiss parliament, all from different political parties. They will work and help us to announce the voice of the Syriacs and to demand the rights of our people in the Middle Eastern Countries.

Lahdo Hobil
President of European Syriac Union
On 08.09.2012 organizations, political parties and independent person of the Syriac people have founded the Syriac National Council of Syria.

At the Gonen Hotel in Istanbul the participants of the founding congress elected Mr. Bassam Ishak as the President of the Syriac National Council of Syria. Please find here the press release:

To the Syrian people... To the People of Revolution

It has been more than a year and half for the start of the Syrian revolution that seeks better future for us and for our children. Killings, displacement, oppression and torture. The process of assassination has not stopped from killing our children and attacking our villages. The criminal gang did not provide a barbaric way of killing and only used, arrests, raids, shelling and bullets, killing and violations, displacement and mortar hatred destroy houses, cities, streets and fields. The ruling gang aircraft fired lava death and destruction. The regime is trying to destroy the pure image the Syrian revolution to divide the components of the Syriac people. The regime is trying to destroy our dream in the presence of any international support. More than twenty thousand martyrs (civilian and military) including women and children, tens of thousands wounded, imprisoned or move to more secure countries as refugees. But after all this! we still fixed, and our great will was never weakened by the horrible attack of Al-Assad criminal regime. And we’ve become role model in confrontation and competition to move forward to overthrow the legitimate system of tyranny, terrorism and corruption; and to finally enjoy civil republic of pluralist based on the foundations of justice and equality.

Many factors pushed the Syriac people to arrange his powers to remedy the risk of fragmentation and loss and for activating claim his rights. The sense of responsibility towards the sacrifices of the Syrian people and the difficult conditions experienced by the country pushed us as parties, institutions, and Syriac members to establish the Syriac national council of Syria in order to activate the group work that support Syriac in specific and Syriacians in general. However, we will keep on supporting the Syrian revolution in which we are part from beside supporting the authorities, equal citizenship and full national partnership. A constitution that admits and situation of national diversity, including constitutional recognition of the existence of the national identity of the Syriac people. Constitution in accordance with international conventions and the Universal Declaration of Human Rights, and keep pace with modern developments, and meets the requirements of society with all its components so that this constitution is based on administrative decentralization.

We look forward to peaceful life for all the components of the Syrian people for the various national and religious affiliations in the future Syrian republic of pluralism and democracy. We also look forward to preserve the rights of our Syriac people and to be equal as Syriacs - Assyrians by rights and duties with the rest of Syria, Arabs and Kurds, Circassians, and others, in addition to the rights of the different religions and sects of Christians and Muslims and others. Believing that this pluralism and this diversity is an essential factor culture and civilization of Syria.

We ask our brothers in the Free Syrian army whom we support and defend to control all irresponsible actions that take place in some cases in which it alter its real and great image and to stop anyone who intend to give a bad image or bad reputation for to wonderful revolution. As result for all what we mentioned, we ask our Syriac people to support the Syrian revolution.

And we ask all other Christians to be good example of Jesus’ message which rejected injustice and called for justice and rights. You should not allow the regime to succeed in his trap that relies on strife and conspiracies. The huge number of Syriacs who migrated during the reign of this regime after the great ignorance and injustice of the Syriac clearly shows the great lie about protecting Christians by the regime. The regime intended to make demographic change for the syriacs and to abolish their culture and political institutions as well.

The last but not the least, we ask our Syriac people to stick to their land and to keep their presence in Syria the land of their ancestors and civilization. We ask you to be strong like great rock that never moves or shakes.

WE are ready for all kinds of collabora- tion to rescue Syria from its crisis.

Finally, we believe that we all together are going to drop that Tyrant and we will build home of peace and dignity where all Syrians enjoy their rights without any ethnic, national or ideological discrimination.

Glory and eternity to martyrs of the Syrian Revolution

We pray for God to heal all the wounded and to liberate all the detainees.

Freedom for civil and democratic Syrian republic.

SCANDALS CONTINUE TO HIT SYRIACS IN TURKEY

Last year several media organisations had reported the false descriptions about Syriac people in the manual books for secondary schools in Turkey. The books of history of 10th grade students were discriminatory vis-à-vis Syriac people and other Christian groups as well.

For the first time in the history of the Turkish Republic, the Christian minorities were defined at the history books and short historical/background information were fulfilled. Meanwhile, the historical information was discriminative, bias and erroneous. The history books shows Syriac people as traitor vis-à-vis Turkish state, the allies of western powers and foreigners in the Turkey to fulfill the wills of Western states.

Following this incident, ESU sent a letter to Turkish officials and described the disappointment of Syriac people, their expectations for democratic and modern principles and made a clear call to Turkish officials to correct this great and unjust attitude. On the hand, ESU informed the European Union counterparts about the incident in order to push Turkey to change its’ long lived attitude against minority groups in Turkey. On the other hand, Syriac deputy Erol Dora brought this issue to the agenda of Turkish Parliament and he made private meeting with the Ministry of Education. Also the Southeast (Turabdin) Syriac Cultural and Solidarity Association in Turkey played active role during this period.

Concerning this incident, EU Turkey Rapporteur Ria Oomen-Ruijten stated “education plays a pivotal role in this process. In last year’s report, I urged the Turkish Government to pay special attention to educational materials in schools, which should reflect the religious plurality of Turkish society, and to the need for unbiased learning materials.”

Despite the active action from Syriac organizations within Turkey and in diaspora, from well-known personalities, European calls, and despite the declarations from Turkish officials the scandal continues even in this years’ history books. The Turkish government and authorities did not show any effort and will to the change this attitude.

On the other hand, Mor Gabriel Monastery, which is struggling with various unjust cases, gets another refusal concerning land disputes with Turkish state. Despite the local court favorable decision, historical documents, tax fees and experts, Turkish Supreme Court had decided against Mor Gabriel Monastery.

Mor Gabriel Monastery which goes back to 1600 years has significant importance within Syriac church and also within universal Christianity. During the history the Monastery served as theology school and as institute of Syriac language and played cornerstone in the protection of Syriac culture, literature and belief. Today, the Monastery has very special and distinguished place among Syriac people and the Monastery is accepted as “Second Jerusalem” for Syriacs around the world.

The AKP (Justice and Development Party), did not shows any intent and will to solve the problem of the Monastery and it continue to deny the existence of Syriac people.

The policy of Turkish state vis-à-vis minorities has been always discriminative. Especially non-Muslim minority groups are targeted to discriminative and assimilationist policies. They had been constantly target of harassments, attacks and genocides. Their presence also constantly dwindled by hundreds of thousands because of their treatment.

Concerning the Mor Gabriel Monastery decision, Stefan Füle, the commissioner responsible for the Enlargement and European Neighborhood Policy, stated his disappointment and concerns several times and he highlighted that the Commission follows the is very closely.

Mor Gabriel Monastery authorities described their disappointment about the long juridical process and they declared their intention to follow their rights at the European Courts of Human Rights.

Syriac people around the world follow closely the legal cases and continue to support Mor Gabriel Monastery in this period. As we stated earlier, the Monastery legal cases are the democracy tests for Turkey.

ESU also will continue to monitor the situation concerning Mor Gabriel Monastery in the European level and create public opinion around this issue in order to give all rights and lands back to the Monastery.
